RW-G95510M	955mm	10m	56	5	13.7

All specification details have a tolerance of +/- 5%

Uses, Restrictions & Safety

Used extensively around prisons, military camps, utility compounds, high security hospitals, electricity sub-stations, high-voltage pylons and other locations that require considerable security.

When razor wire is correctly installed it is legal in the UK, however there may be restrictions for domestic use.

Protective gear should always be used. Gloves, face and body protection.

**All information is given as a guide and may vary slightly to the stated specification due to manufacturing variances. All measurements are approximate. It is the user's responsibility to check the suitability of the product for the intended application. Mastermesh Wire Ltd reserve the right to change the specifications without notice.*
